

TENURE-TRACK FACULTY POSITION IN EXPERIMENTAL SOFT CONDENSED MATTER PHYSICS AT SYRACUSE UNIVERSITY

We invite applications for a tenure-track faculty position in experimental physics in the areas of soft condensed matter and biological or biomaterial physics. The department has a strong group of faculty working in condensed matter, statistical, and biological physics, in both experiment and theory (<http://physics.syr.edu>). This activity is complemented by an ongoing University-wide expansion in the area of biomaterials (<http://biomaterials.syr.edu>). The new faculty member should have research interests that overlap with and/or complement the current efforts. Applicants are requested to send a letter of application, a curriculum vitae, and statements of research and teaching interests as attachments in an e-mail to <mailto:mfacultysearch@physics.syr.edu>. Alternatively, materials can be mailed to: Faculty Search Committee, Department of Physics, Syracuse University, Syracuse NY 13244-1130 USA. Please be sure to label your application "Condensed Matter." Applicants are also asked to arrange for three or more letters of reference to be sent to the same address. All applicants should have a substantial record of research accomplishments and a strong interest and ability to teach effectively at both the graduate and undergraduate levels. Review of applications will begin December 1, 2007, and will continue until the positions are filled. Syracuse University is an affirmative action/equal opportunity employer. Members of minority groups and women are especially encouraged to apply.
