

Post-Doctoral Position in Theoretical Cosmology.

The Department of Physics at Syracuse University invites applications for a postdoctoral position in theoretical cosmology starting September 2010 (for two years and renewable for a third year). The successful candidate will work with Prof. Scott Watson and other members of the Syracuse particle theory and cosmology group.

For further information about the research in Prof. Watson's group see <http://physics.syr.edu/FTGElementary.htm> and <http://physics.syr.edu/FTGPeople.htm>

For full consideration qualified candidates must complete an online application at www.sujobopps.com and attach their curriculum vitae, list of publications, a statement describing their qualifications, and the email addresses/phone numbers of three references.

We are looking for a candidate whose expertise can be in a broad range of topics, including dark matter, dark energy, theoretical particle physics, and quantum gravity. Other group members include: Cristian Armendariz-Picon, A.P. Balachandran, Simon Catterall, Jay Hubisz, Carl Rosenzweig, Joseph Schechter, and Kameshwar Wali.

Syracuse University is an affirmative action/equal opportunity employer. Members of minority groups and women are especially encouraged to apply.
