

**CM60**  
**CELEBRATING 60 years of condensed matter physics research**  
**AND 50 years of Arny Honig**  
**AT Syracuse University**

**Friday, April 23**  
 5:30 – 7:00 PM

University Sheraton – Comstock A/B  
 Reception

**Saturday, April 24**  
 9:00 – 9:30

Physics Building, 2<sup>nd</sup> Floor  
 Registration

**Session I**  
 9:30 – 9:45 AM

Cristina Marchetti

A Chair's perspective:

9:45-10:15  
 10:15-10:45

David J. Bishop  
 Britton Plourde

Physics research at SU today

What hath Henry wrought?

Superconducting circuits for quantum  
 information science

Coffee Break (10:45 – 11:15)

**Session II**  
 11:15 – 12:30

Catchup talks (8 varieties): Durdana Balakeshiva, Mouqun Dong,  
 Xiangdong Wei, Sermet Yucel, Jingyu Lin, Hongxing Jiang, Marty  
 Abkowitz, Jay Zemel

**Session III**  
 2:00 – 2:30

Mark Reed

Electronics after 2016:

2:30 – 3:00  
 3:00 – 3:30

Matthew LaHaye  
 Arny Honig

To the end of the roadmap, & Beyond

The frontiers of mechanical detection

What comes after 50? *The Future!*

**Session IV (Subbasement)**  
 3:30 – 5:00

Coffee break, inspection of Mrs. Jennings' Wooden leg.  
 Several subbasement research labs will be open for informal tours

**Banquet**  
 6:00 - ?

Atrium, Life Sciences Complex

George Langford  
 Any and sundry

A Dean's perspective

Well-tempered remarks
